

Made to last

Patented systems

CONNECTION PLATE EAST-WEST SYSTEMS

K23815

Material characteristics

Nomenclature: Galvanised steel DX51D;
Surface treatment: Z100;
Tensile breaking load R_m (N/mm²): 390;
Yield strength R_e (N/mm²): 320;
Elongation (%): 31.4;
Chemical composition verified as per UNI EN 10346:2015 – certificate 3.1

Technical characteristics

Nominal thickness: 8/10 mm;
Surface layer: white/grey polyester
